Dreer's Wholesale Price List

JANUARY—1916—JUNE

WE TAKE PLEASURE in presenting to the Trade, this, our Wholesale Price List for the Spring of 1916, and are pleased to say that notwithstanding the continuance of the unfortunate and deplorable conditions throughout a large part of Europe from which we get many of our supplies of Seeds, Plants and Bulbs, we have at this writing, December 15th, received a fair portion of our contracts, and assurances that the balance will come forward with the least possible delay, so that we feel reasonably sure of being able to take care of the requirements of our customers almost as usual. Some few items which may be delayed are expected to reach us in ample time for planting, and can be sent on their arrival.

We would strongly advise our customers to send in their orders for Seeds, Plants and Bulbs as early as possible, not only to avoid the Spring rush, but to insure getting full requirements of anything that may be short.

We are also pleased to call attention to the fact that in spite of the difficulty of getting high grade imported stocks of all kinds, and greatly increased transportation charges, the prices in most cases remain unchanged. Conditions, however, make it necessary to call the special attention of our customers to the rule of the trade that all orders for growing crops and stock not actually in hand are accepted subject to crop failures, shortages, or other causes beyond control, and the right to advance prices without notice.

SEED DEPARTMENT—This is in charge of trained experts, and whether your wants may be in Flower, Vegetable or Agricultural seeds, you may be sure to get only the choicest.

PLANT DEPARTMENT—Our stocks of the leading decorative and flowering plants are in splendid condition, and customers may rely on getting full value and prompt and careful service.

SHIPPING.—By our careful and thorough system of packing, we **Guarantee Safe Delivery** of plants and perishable goods, when ordered to be sent by **Express**, and we always ship this way unless we have positive instructions to the contrary, and **when sent in any other way, are solely at purchaser's risk.**

PARCEL POST.—Many of our customers seem to have the idea that Seeds, Plants and Bulbs can be sent by Parcel Post at small cost, such is not the case, and it is invariably cheaper, safer and quicker to send packages by Express. We will be pleased to send such items as can be mailed by Parcel Post if customers will remit for postage. **We do not deliver any goods free at Wholesale Prices.**

PRICES.—This list cancels all previous offers. The prices quoted in this list are net, and subject to no discounts. Articles offered in our Retail Catalogue or Garden Book and not offered in this list will be supplied at retail prices less the following discounts, viz.: Vegetable and Flower Seeds in packets, Bulbs and Plants, $33\frac{1}{3}\%$; Small Tools and Insecticides, 10%.

No order for **plants or bulbs** amounting to less than \$1.00 will be filled and packed at wholesale prices. Orders received from the trade for Plants or Bulbs amounting to less than \$1.00 will be charged for at retail prices, less 10 per cent.

TERMS OF BUSINESS.—Unknown correspondents desiring to open an account will please furnish three references to parties in the trade with whom they have had credit relations, and sufficient time to investigate same, otherwise cash must accompany order.

 Remittances should be made by Post-Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way.

 Goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance.

 All goods are offered subject to crop failures, shortages or other causes beyond our control and to being unsold on receipt of order, and we reserve the right to advance prices without notice.

 No charge is made for boxes or packing, nor for delivery to Freight Depots or Express Offices in Philadelphia.

 In filling out your order always give **Shipping Directions**, and write **Name and Address Distinctly** on each and every order.

NON-WARRANTY.—We wish it to be distinctly understood that although we continue to take all possible pains to supply only New, Genuine and Unadulterated Seeds, Plants and Bulbs, we still give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any of the Seeds, Plants or Bulbs we send out, and will not be in any way responsible for the crop. Every order received for articles named in this Catalogue will be executed on these conditions only.

Dreer's Famous American Asters

All our Asters have been grown under our own supervision, and we know that the quality in every case is unsurpassed.

Astermums.

This strain of Giant Comet Asters was first exhibited at the Florists' Convention in 1912, and their immense size and Chrysanthemum-like appearance created quite a sensation. The stock we offer was grown from seed procured from the originator and has been, we believe, improved under our care, the colors which were somewhat mixed being carefully trued up. They closely resemble Crego's Giant, but come into bloom fully two weeks earlier. We offer three colors.

	Tr. pkt.	Oz.
White Astermum	40	\$2 00
Pink "	40	2 00
Lavender "	40	2 00

Crego's Giant Comet Asters.

Magnificent fluffy flowers, averaging over 5 inches across, with long strong stems, the finest of this type. Comes into bloom in August, continuing well into September, and unlike most of the Comet sorts, stands when cut and is a good flower to ship. We offer five colors, our own saving, of the highest quality.

Pink	40	\$2 00
White	40	2 00

Enchantress Aster.

A very desirable mid-season variety. Grows about 18 inches high, with very double, wide petalled flowers of the soft, delicate pink color peculiar to Enchantress Carnation. 40 cts. per trade pkt.; \$2.00 per oz.

Mikado Asters.

Very similar to Crego's Giant but dwarfer and earlier. Flowers of largest size rarely under 5 inches across, borne on good long stems, we offer two colors.

	Tr. pkt.	Oz.
Mikado Pink or Rochester	30	\$1 50
Mikado White	30	1 50

Dreer's "Crimson Giant" Aster.

A superb late-branching variety, with perfect double flowers of rich rosy crimson, full of fire. Fine for cutting, showing up well under artificial light. 30 cts. per trade pkt.; \$1.50 per oz.

Dreer's Superb Late Branching Asters.

The finest Asters for late August and September blooming.

The plants form strong, branching bushes, 2 to 2½ feet high bearing on long strong stems their handsome Chrysanthemum-like flowers, which, under ordinary cultivation, averages 5 inches across. The form of the flowers, together with the length of the stems, places them at the head of Asters for cutting. They come into bloom from two to three weeks after the average type, usually being at their best during September, and filling in the gap between the general run of Asters and Chrysanthemums. We offer eight beautiful and distinct colors, viz.:

CREGO'S GIANT ASTER

Dreer's Famous American Asters

King Asters.

The "King" Asters form a distinct class or type, and have many sterling qualities to recommend them to lovers of fine Asters. They are of strong, sturdy habit, growing fully 18 inches high, and bear from August to October very large double blossoms, the petals of which are more or less quilled, forming very attractive flowers.

Tr. pkt. Oz.

Dreer's Crimson King. A brilliant new color in this type, which originated with us. It is the richest and deepest crimson variety known to us	40	\$2 50
Pink King. An attractive shade of delicate shell-pink	30	1 50
Rose King. A beautiful brilliant rose variety	30	1 50
Violet King. This is the original of this type, and is a pleasing soft shade of violet	30	1 50
White King. Of purest glistening white, flowers very large	40	2 50

Lavender Gem Aster.

One of the most beautiful early flowering Asters. Of Comet type, with large, artistic loosely-arranged flowers of the most charming shade of lavender imaginable. 50 cts. per trade pkt.; \$2.50 per oz.

Dreer's "Peerless Pink" Aster.

This grand Aster may be briefly described as a glorified late branching shell-pink or Mary Semple. It has the same strong, sturdy habit of growth; comes into bloom a little earlier, bears freely almost globular flowers rarely under 4 inches across and frequently over 5 inches. The color is rich shell-pink, similar in shade but more decided than the late branching. The centre petals are prettily incurved, while the wide outer petals reflex, making a most artistic and finely finished flower, and stands cut longer than any other. 50 cts. per trade pkt.; \$2.50 per oz.

DREER'S SUPERB LATE
BRANCHING ASTER
(offered on opposite page)

Dreer's "Pink Beauty" Aster.

A magnificent cut-flower variety, in bloom from early August until well on in September; 24 to 30 inches high; flowers average 4 inches across, on long, strong stems. Color a delicate blush pink, and pronounced by experts to be the finest pink midseason sort yet introduced. 40 cts. trade pkt.; \$2.00 oz.

DREER'S "PEERLESS PINK" ASTER

IMPROVED VICTORIA ASTER

Dreer's Famous American Asters

New Red Aster "Sensation"

This is the reddest of all Red Asters, the color being a rich garnet or ox blood red which glistens in the sunshine like a live coal. The plants are of free-branching habit about 18 inches high; the very double flowers, averaging 3½ inches across, are borne freely on stems a foot long from early in August till the close of September. The intense color shows up well when cut, and makes a very brilliant bit of color in a bed or border. 50 cts. per trade pkt.; \$2.50 per oz.

Improved Daybreak or American Victoria Asters.

The beautiful and popular pink variety "Daybreak" was the original of this type followed by "Purity" and the other colors offered below. As a class they are characterized by their even, symmetrical growth and free flowering qualities which make them the finest of all Asters for bedding and very desirable for cutting; blooms from early August till late October.

TEN WEEKS' STOCK

Dreer's Fine Sweet Peas

We aim to confine our list of Sweet Peas to the very best varieties and only those which can be used by florists for cutting. We have added a number of the choicest new varieties of the Spencer type to our list this season.

Mixtures of Sweet Peas.

We take special pains in making up our various mixtures; nothing but named sorts are used.

	¼-lb.	Lb.
Dreer's Peerless Mixture. contains only the finest grandiflora varieties, the best mixture of standard sorts possible. Per 10 lbs., \$3.50	15	\$0 40

Orchid-flowered or Spencer Sweet Peas.

This type is distinguished from the grandiflora sorts by the extraordinary size of their flowers and by the standard being crinkled and wavy. They usually bear four blossoms on a stem, and are as easy to grow as the commonest sorts. Owing to their being shy seeders they will always be higher in price than the grandifloras, but a fair crop the past season enables us to offer them at prices much lower than ever before.

CANNAS

Our Own Introductions

Eureka. Another season's trial fully demonstrates our former claims for this variety—that it is the best white for all purposes to which Cannas are devoted. It is of robust constitution, growing four feet high, forming sturdy, shapely plants very quickly. Its free flowering tendency can be readily understood when we chronicle the fact that a small plant set out May 15th, three months later carried 15 immense heads of flowers. These are of a creamy-white, changing in full sun to a pure white. Its superior merits have been acknowledged by all who have seen it, and we unhesitatingly pronounce it the best white Canna yet introduced. 30 cts. each; \$3.00 per doz.; \$20.00 per 100.

Favorite. There have been many yellow Cannas spotted with carmine or crimson that were good; it is, therefore, particularly interesting to find a variety that in every way eclipses its many predecessors and for which we have singled out this sort. The color is a rich, deep golden-yellow, produced on tall stems high above the foliage. The red dots, which are not too pronounced, add to the piquancy of the flower, without detracting from the golden mass effect. 5 feet. 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

Orange Bedder. A particularly attractive bedding variety of a bright orange with just sufficient scarlet suffusion to intensify the dazzling mass of colors when the wide branching stems are covered with flowers. 30 cts. each; \$3.00 per doz.; \$20.00 per 100.

Remarkable. A distinct and effective bronze variety that stood out boldly from all other sorts in our fields, not only on account of its height (over 6 feet), but particularly on account of its beautiful bronze foliage and the scarlet-carmine flowers which force attention. The tall, graceful habit and strong coloring make it a valuable addition. 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

The Gem. An entirely distinct spotted variety. The immense trusses of flowers are borne on upright branching stems well above the foliage, and are of deep cream or straw-yellow, spotted with deep carmine. 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

One each of the 5 sorts for \$1.50.

Schopenhauer. Very free, but not heavy growth; flowers very freely, color a bright red with yellow throat; 3 feet	25	2 50	20 00
Wintzer's Colossal. This is the largest-flowering Canna we have yet seen; individual florets often measure 8 inches across; the color is a bright scarlet; the plant is a strong, vigorous grower and very free-flowering; it is of the Italian or Orchid-flowered type; 5 feet	35	3 50	25 00

We will furnish one each of the 22 varieties for \$5.00.

CANNAS

Select Standard Sorts

All have green foliage unless otherwise specified.

The prices quoted are for strong divisions in a dormant state. Potted plants will be supplied after May 1st at an advance of \$1.00 per 100.

Note our collection has been carefully revised. Such varieties as Florence Vaughan, Mlle. Berat, Richard Wallace, Alphonse Bouvier, Charles Henderson and many others which at one time were the best of their respective colors, have been discarded, newer, better varieties, at no advance in price, taking their places. If you are not familiar with these newer sorts and will simply specify what color or type of variety you want we shall be pleased to make a selection for you which we know will suit you.

For Descriptions in greater detail, see our Garden Book for 1916.

DREER'S SELECT DAHLIAS

All varieties are supplied in strong dormant roots except those specially noted, which can only be furnished in green growing plants ready after April 25th. As the season advances our supply of dormant roots of some of the varieties becomes exhausted, in which case green growing plants are sent instead. These will give equally as good results as dormant roots, flowering just as freely, and many experienced planters prefer them, and by the time they are cut by frost they will have produced strong roots which can be carried over in the usual way.

Special Varieties of Dahlias.

New Show Dahlia—Dreer's Yellow.

We take pleasure in offering and endorsing this as the best yellow Show Dahlia yet introduced. In general form and make-up it resembles Dreer's White which suggested its name, but the flowers are larger, frequently over seven inches in diameter, but without any coarseness, it having a refined appearance in all stages of development, the flowers when full ripe are perfect balls in shape, with back petals firm and tight and lasting in good condition for several days after fully developed, these flowers are held rigid and erect on long stiff stems well above the foliage. The blooming season is long and continuous, the flowers being as good at the end of the season as at the beginning. The cut blooms were shipped to the Pittsburgh markets from August 27th to November 1st, and reports received were that Dreer's Yellow were without question the finest yellow Dahlias ever received in that market. Roots, 75 cts. each.

Giant and Colossal Cactus Dahlias.

Etandard de Lyon. Everybody admires this beautiful carmine-rose giant, which we consider one of the most distinct varieties for garden decoration. The flowers are of a hybrid-cactus type, distinct in shape from all others; the petals are broad, curled and wavy and form a flower fully 6 inches in diameter and 4 inches deep, a very large flower, yet without any stiffness or formality. Plants ready in April. 50 cts. each; \$5.00 per doz.; \$35.00 per 100.

Nibelungenhort. This is another distinct introduction which is greatly admired, with flowers from 7 to 8 inches across, composed of rather broad, more or less curled and twisted petals of a beautiful shade of old-rose with golden-apricot suffusion. Very free-flowering on long stems; a fine cut flower. Roots, 50 cts. each; \$5.00 per doz.; \$35.00 per 100.

Nerthus. The centre of the flower is a rich, glowing, bronzy, orange-yellow, passing to a carmine-rose at the tips, the whole suffused with a glowing golden color, which gives it an iridescence which it is not possible to describe. Roots, 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Rheinkoenig. Pure snow-white flowers of splendid form, 5 inches and over in diameter. These are of great substance, lasting splendidly when cut; they are borne on long, stiff stems held well above the foliage, making it as valuable for garden decoration as for cutting. Roots, 20 cts. each; \$2.00 per doz.; \$15.00 per 100.

Wodan. Bold, large, but not coarse flower, frequently 7 inches in diameter, a graceful arrangement of semi-incurved tubular petals of a pleasing, delicate salmon-rose color, shading to old-gold in the centre. Roots, 20 cts. each; \$2.00 per doz.; \$15.00 per 100.

Wolfgang von Goethe. Large, gracefully-arranged, perfect flowers of a rich apricot, with carmine shadings. Roots, 20 cts. each; \$2.00 per doz.; \$15.00 per 100.

Pæony Flowered Dahlia.

Mondscheibe. Among the many Pæony Flowered Dahlias, nearly all of which are desirable cut flowers, this fine yellow is particularly worth singling out, it being an exceptionally large flower or good stems and one of the most prolific bloomers. Roots, 50 cts. each; \$5.00 per doz.; \$35.00 per 100.

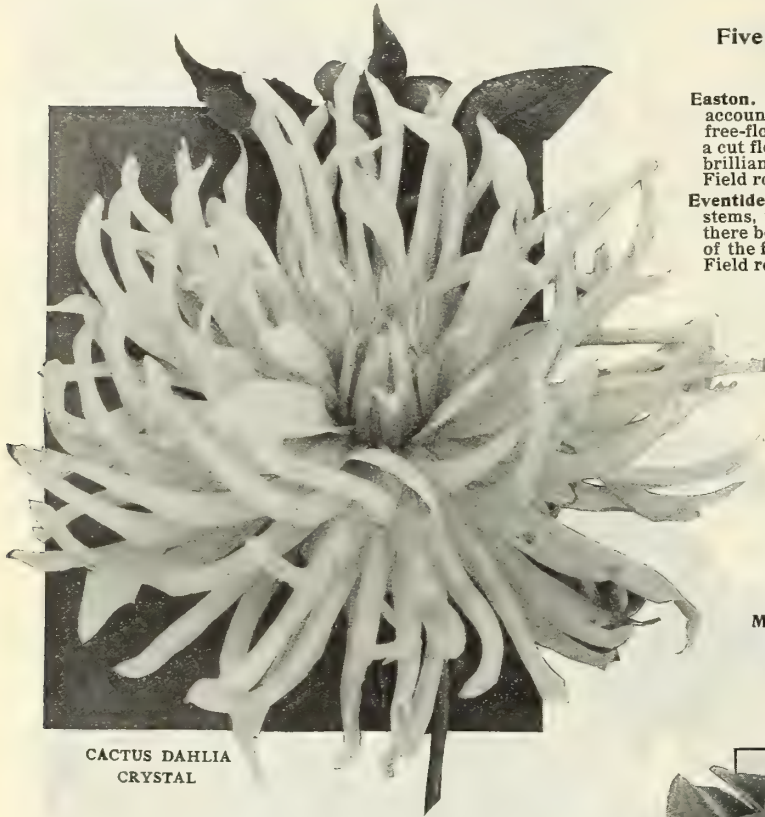

SHOW DAHLIA "DREER'S YELLOW"

DREER'S SELECT DAHLIAS

We give on pages 31 to 34 a complete alphabetical list of all the Dahlias we have to offer for 1916. For full descriptions see pages 133 to 153 of our Garden Book or retail catalogue.

All varieties are supplied in strong dormant roots except those marked P, which can only be furnished in green growing plants ready after April 25th. As the season advances our supply of dormant roots of some of the older varieties becomes exhausted, in which case green growing plants are sent instead.

CACTUS DAHLIA
CRYSTAL

Six Special Cactus Dahlias for Cutting.

Candeur. A wonderful pure white, which in the fully developed flower more closely resembles an incurved Chrysanthemum than any other sort; it is of fair size, and a valuable cut flower.

Field roots, 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Crystal. A wonderfully beautiful Dahlia of large size and fine form, composed of long twisted incurved tubular petals of a tender silvery-pink shading to ivory-white at the centre.

Green plants ready April 25th. 50 cts. each; \$5.00 per doz.; \$40.00 per 100.

Galathea. A medium-sized flower of splendid form, especially appreciated on account of its delicate color, which is an even, tender soft pink.

Field roots, 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Rheinischer Frohsinn. This variety appealed to every visitor to our trial grounds during the past three seasons as one of the most distinct and refined varieties. The flowers are large, of splendid form; the long incurving petals are white at the base, but at about one-half their length they become suffused with and change to a luminous carmine-rose, the two colors combining harmoniously in forming a most attractive flower. Green plants ready April 25th. 50 cts. each; \$5.00 per doz.; \$35.00 per 100.

Thais. The rather broad petals, which are loosely arranged, make up an informally shaped flower, which, on account of its color, a pure white with a soft mauve suffusion which is deposited over the snowy petals like a dew, makes it one of the most delicately colored sorts which we have yet offered.

Field roots, 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Wacht am Rhein. In offering this variety last year we described it as the most beautiful cactus variety offered in 1915, another season's trial has proven all that we claimed for it last year; it is an introduction of the same grower who gave us such important sorts as Wolfgang von Goethe, Wodan, Rheinkoenig, Nerthus, Nibelungenhort, Walkure, Mondscheib, etc., and it is a creditable comparison to these superior sorts. A most gracefully formed flower, of large size, on splendid stems for cutting, and of an ideal soft rosy-pink color with white suffusion. Roots, 50 cts. each; \$5.00 per doz.; \$40.00 per 100.

Five Special Decorative Dahlias for Cutting or Garden Decoration.

Easton. Not an extra large flower, but a variety which, on account of its brilliant color, good form and remarkable free-flowering habit, is certain to become a standard, both as a cut flower as well as for garden decoration; in color it is a brilliant Turkish or Oriental red.

Field roots, 10 cts. each; \$1.00 per doz.; \$8.00 per 100.

Eventide. A splendid flower of perfect form, on long, stiff stems, which for all purposes may be termed a white Dahlia, there being but the faintest flush of delicate rose on the edge of the flower, which seems to intensify its pureness.

Field roots, 15 cts. each; \$1.50 per doz.; \$12.00 per 100.

Hortulanus Fiet. This is one of the Dahlias that has come to stay. A giant-flowered variety with blooms over 8 inches in diameter, of the most delicate shade of shrimp-pink, the tip of each petal barely touched with gold. The entire flower has a suffusion of delicate tints of red and yellow, which gives a glow yet softness of color difficult to describe.

Roots, 50 cts. each; \$5.00 per doz.; \$40.00 per 100.

Minnie Burgle. One of our California friends, an enthusiast on Dahlias, called our attention to this variety two years since, and we have been greatly pleased with our trials; it is one of the freest flowering decorative varieties in our fields, thirty large perfect open flowers on one plant at a time not being unusual; in color it is a rich, luminous dark scarlet; these flowers are carried on long stiff stems; splendid both for cutting and garden decoration.

Plants ready April 25th. 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

Mont Blanc. An early, free, continuous flowering creamy-white on good stiff stems. One of the most important cut-flower varieties.

Field roots, 10 cts. each; \$1.00 per doz.; \$8.00 per 100.

Gloriosa Superba Rothschildiana.

A splendid tropical climber, with gorgeous lily-like flowers of a bright orange color, changing to deep scarlet, flowering throughout the summer. 40 cts. each; \$4.00 per doz.

Dreer's Superb Gloxinias.

Our strain of these is the finest procurable; the bulbs are well matured and of good size.

We offer either separate colors, as blue, red, white, red with white edge, blue with white edge, or in choice mixture, at 60 cts. per doz.; \$3.50 per 100; \$30.00 per 1000.

New Emperor Gloxinia.**Gloxinia Hybrida imperialis.**

A new hybrid strain which has been produced by crossing *Sinningia Regina Hybrida* with the choicest strains of *Gloxinias*, resulting in a plant which not only embraces all of the rich and varied colors of the *Gloxinias*, but in which the foliage is also distinct and very ornamental, the leaves being of a reddish-brown or bronzy color with strongly projecting white veins, while the flowers are all held very erect, thus showing to full advantage.

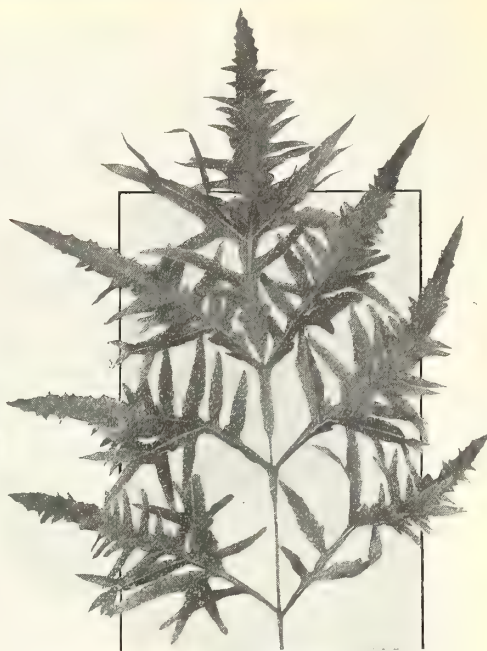

Strong bulbs in choice mixed varieties. 75 cts. per doz.; \$5.00 per 100.

DREER'S SUPERB GLOXINIA

POLYPODIUM MANDAIANUM

PTERIS RIVERTONIANA

DREER'S FINE FERNS

VARIETIES OF SPECIAL MERIT

Adiantum Croweanum.

We are the sole distributors of Mr. Crowe's stock of this valuable fern.

We have a nice lot of this important variety. 3-inch pots. \$2.00 per doz.; \$15.00 per 100; \$140.00 per 1000.

Adiantum Hybridum.

Preferred by some growers to A. Croweanum. A large thrifty stock.

2½-inch pots, 75 cts. per doz.; \$5.00 per 100; \$40.00 per 1000.
3-inch pots, \$1.00 per doz.; \$8.00 per 100; \$70.00 per 1000.

Adiantum Farleyense.

Splendid, thrifty, vigorous plants.		Per doz.	Per 100
3-inch pots	\$3 50	\$25 00
4 "	5 00	40 00
5 "	9 00	75 00

Cyrtomium Rochfordianum.

The Crested Holly Fern.

A most important Fern. Its foliage is of a rich, deep, glossy green color, the pinnæ or leaflets besides being wavy or undulated are also deeply cut or toothed, giving the plant a graceful light appearance, which makes it valuable not only as a dish Fern but for decorative work and apartment use.

2½-inch pots, \$3.00 per 100; \$25.00 per 1000.
4-inch pots, \$2.00 per doz.; \$15.00 per 100.

Cibotium Schiedei.

It seems almost impossible to put up a first-class decoration without including some of this beautiful variety.

We offer a splendid stock of 6-inch pots, \$1.50 each; 8-inch tubs, \$2.50 each; 10-inch tubs, \$3.50 to \$5.00 each.

Platyceriums (Elk's Horn Fern).

Each

Alcicorne Majus	\$2 00
Stemmaria	1 00
Willinckii	1 75

Pteris Rivertoniana.

A very pretty crested Pteris which originated with us and which we believe will prove valuable either as a dish fern or for growing as an individual specimen plant. It is of good color and neat habit of growth.

2½-inch pots, \$1.50 per doz.; \$10.00 per 100.
3-inch pots, \$2.00 per doz.; \$15.00 per 100.

Pteris Childsi.

This beautiful variety is to Pteris what Farleyense is to Adiantums, and like that variety produces no spore, so that propagation is by the rather slow method of division, which will keep it a rare variety. The plant is of strong growth, attaining a height of about 20 inches; fronds large, pinnæ deeply dentated and undulated, tips crested. Makes a beautiful specimen for exhibition.

Fine plants, 4-inch pots, 50 cts. each.

Polypodium Glaucum Cristatum.

A perfect gem and entirely distinct from all other Ferns, and a splendid subject to grow into specimen plants, the fronds attain a height of about 2 feet, and are of a metallic glaucous-blue color, with the edges of the pinnæ wavy and crispate, giving the plant a graceful, unique appearance. Good 4-inch pots, 75 cts. each.

Polypodium Mandaianum.

This beautiful Fern originated as a seedling of P. Aureum and is similar in habit of growth to its parent, producing on well-grown plants fronds from 2 to 3 feet long, on which all of the pinnæ is beautifully fringed or lacinated; entirely distinct from all other varieties. It makes a handsome specimen grown either in a pot or a hanging-basket.

4-inch pots, 50 cts. each.
6-inch pots, 75 cts. each.

We also offer a limited stock of Adiantum Hybridum in flats at \$3.00 per flat.

Mixed Ferns for Dishes

We have at all times a good supply of these. 2 1/4-inch pots, \$3.00 per 100; \$25.00 per 1000.

Selaginellas or Mosses

Amena Emiliana Krauseana

2 1/4-inch pots, 75 cts. per doz.; \$5.00 per 100.

Hydrangeas

We have introduced to American commerce practically all the worthy French Hydrangeas in popular demand to-day. It has been our constant aim to discard superseded and inferior sorts, and we believe every variety in the sets following to possess such individual distinctive merit as will make it valuable. All plants are in well protected cold frames and will be kept dormant as late as possible in spring.

Hydrangea Novelties for 1916

Directeur Vuillermet. Immense trusses of medium sized fringed good pink flowers.

L'Islette. Rosy carmine of medium size, very free, unusually promising.

Louis Foucard. Very free flowering rosy carmine.

Mme. E. Tabar. Very delicate rose color.

Mme. Legou. Distinct, large and imposing creamy white.

Mme. R. Jacquet. Compact heads of a pretty pale pink.

Mlle. Lucienne Chauré. Nicely fringed bright rosy carmine, strong grower, a good garden variety.

Mlle. Rene Plessier. Splendid tender rose.

Prof. A. Vezzin. White with delicate carmine suffusion.

Souvenir de Mme. Victor Raoult. Very large lively rose.

Souvenir de Monsieur Belot. Lively carmine-rose.

Ville de Chartres. Immense pure white of vigorous habit.

Price. Any of above Novelties, 2½-inch pots, 25 cts. each; \$2.50 per doz.; \$18.00 per 100; one each of the 12 sorts for \$2.50.

Hydrangea Novelties of 1915

Baby Bimbenet. Very dwarf, free and early, the plant becomes covered with large compact trusses of silvery-rose flowers.

Beaute Vendomoise. Immense heads of white flowers tinted pink; the individual florets attain a diameter of 4 inches, and while it shows a tendency to a loose open truss, this adds to its attractiveness.

Eclairer. One of the most startling acquisitions, a very bright carmine-rose, the nearest approach to a red. We particularly recommend this.

La France. Very strong grower, with immense trusses of deeply fringed flowers of a delicate shade of rose.

La Perle. The grandest, largest and most refined white we have yet seen; flowers deeply fringed.

Lille Mouillere. Similar to, but distinct from Eclairer; a bright carmine-rose.

Louis Mouillere. A very distinct and valuable variety, a fine shade of deep rose-pink fringed florets in trusses of immense size.

Mme. Auguste Nonin. An unusually attractive pretty pale pink in heads of large size.

Souvenir du Lieut. Chauré. Produces immense heads of bright rose-carmine flowers on bold upright stems.

Price. Any of the above 1915 introductions:
2-inch pots, \$1.00 per doz.; \$7.00 per 100

NEW FRENCH HYDRANGEA

Select Standard Varieties of French Hydrangeas

Avalanche. Large corymbs of pure white flowers; very free-flowering.

Bouquet Rose. Large trusses of well-formed flowers; rosy-amber, turning to bright pink.

E. G. Hill. Trusses of immense size, color a most pleasing shade of pink which does not fade; growth vigorous.

General de Vibraye. Very large heads of bright rose; a splendid forcing variety.

La Lorraine. Very large flowers; pale rose turning to bright pink.

Mlle. Renee Gaillard. Large panicles of milky-white irregularly dentated flowers.

Mme. Maurice Hamar. Large delicate flesh-rose color; a pleasing shade.

Mme. Emile Mouillere. One of the very best; very large flowers, frequently over 2 inches in diameter, of the purest white, with rosy-carmine eye.

Mont Rose. Immense panicles of a clear flesh-rose.

Radiant. Splendid rose-carmine.

Ronsard. Very large individual flowers as well as trusses of a beautiful rose tint.

Souvenir de Mme. E. Chautard. One of the prettiest; robust habit, medium-sized corymbs of bright rose-colored flowers.

Vieux-Chateau. A strong upright growing variety with immense trusses of very large white flowers; these as they mature become suffused with delicate rosy-carmine tint.

Price. Any of the above varieties:

DREER'S SUPERB DOUBLE FRINGED PETUNIAS

Pennisetum (Fountain Grass).

The Pennisetums are now largely used as borders to beds of Cannas, Caladium Esculentum and other tall-growing plants and are becoming more popular each season.

Cupreum. A cross between the fine-leaved *P. Rueppelianum* and the red-leaved *P. Macrophyllum Atrosanguineum*, and combines the good points of both of its parents. It has dark, coppery bronze foliage; the plumes are of a tawny crimson color. It grows 3 to 3½ feet high. A distinct and valuable addition to our list of tender grasses.

Young plants ready April 15th; \$1.25 per doz.; \$8.00 per 100.

Macrophyllum Atrosanguineum (Crimson Fountain Grass). Foliage of a pleasing, dark, metallic, coppery bronze. Ready April 15th; \$1.25 per doz.; \$8.00 per 100.

Rueppelianum (Purple Fountain Grass). A beautiful variety, growing about 2½ feet high; graceful green foliage and purplish plumes. 2½-inch pots, ready May 1st. 75 cts. per doz.; \$5.00 per 100.

Dreer's Superb Double-Fringed Petunias.

For half a century we have been making a specialty of Double Petunias, and our strain is accepted as second to none. We annually plant many thousand seedlings, from which only the finest double-fringed forms are selected for propagating purposes, and by this careful selection the strain shows a decided improvement every year.

We offer 15 distinct named varieties.

3-inch pots, 75 cts. per doz.; \$6.00 per 100. The set of 15 for \$1.00.

Seed of Dreer's Fringed Petunias.

We annually save at our own Nurseries at Riverton, N. J., seed of our celebrated strain of single and double-fringed Petunias, from the very finest flowers, all inferior plants being discarded before any seed is saved, and offer

Superb Double-Fringed, 75 cts. per 500 seeds; \$1.50 per 1000 seeds.

Superb Single-Fringed, 50 cts. per trade pkt.

Philodendron or Monstera.

Spectabilis. 5-inch pots, 75 cts. each.

Giganteum. 5-inch pots, 75 cts. each.

Phyllotænium.

Lindenii Magnificum. An improved form, with large leaves and more decided in variegation. 75 cts. each.

Punica (Pomegranate).

Granatum Legrelli. A splendid shrub, hardy as far north as Washington, D. C.; large double orange-scarlet flowers. 5-inch pots, 35 cts. each; \$3.50 per doz.

Plumbago.

Capensis. 3-inch pots, \$1.00 per doz., \$7.00 per 100.

DREER'S SELECT ROSES

Select Two-Year-Old Stock for Your Retail Trade

The Roses which we here offer are, with few exceptions, field grown stock, either American grown or plants that have been imported from England, Ireland and the Continent.

These plants are all potted up during December and January, stored in cold houses and cold frames, so that they break away naturally in spring, making this the best possible stock for selling to the retail customer.

The prices noted are for strong plants in 5 and 6-inch pots (according to the growth of the variety) for delivery during April, May and June, and while we will make shipments earlier if requested, we prefer to book orders for those months only.

DREER'S SELECT Hardy Perennial Plants

For many years Hardy Perennials have been one of our principal specialties and our stock at the present time is unquestionably the most complete both in quantity and variety in the country.

Many planters not thoroughly familiar with this class of plants have an idea that nothing but a large, field-grown clump will give satisfactory returns the first season. This, as experience has taught us, is in most instances a mistake. A vigorous plant of proper size will, in nearly every case, give quicker and better returns than the best so-called "field-clumps" that can be procured. This fact is particularly appreciated by the leading Landscape Architects throughout the country who use Perennials in large quantity, the majority of whom give preference to the Dreer pot-grown plants. It will be noticed that the majority of the stock offered in this list is described as being 3, 4 or 5-inch pots. This does not necessarily mean that the plants have been altogether pot-grown, but that they have been field-grown and dug and potted up during the Fall and early Winter months, and such stock can be planted even late in the Spring, with practically no loss, which, in the case of clumps, is often quite serious.

The New Anchusas.

The Improved Varieties of Italian Alkanet or Bugloss.

These wonderfully improved Anchusas have proven most valuable additions to our limited list of blue flowering hardy perennials, and particularly so as they flower from May to July, a time when this color is only sparingly represented in the hardy border.

The habit of the plants while strong and vigorous is not at all coarse, they form many branched specimens from 3 to 5 feet high, each branch of which is terminated by a large, graceful, pyramidal spike of blue flowers.

Hardy Asters (Michaelmas Daisies, or Starworts).

These are among the showiest of our late flowering hardy plants. The collection offered below is made up of the choicest varieties only, the weedy sorts being eliminated. All of them bloom in September and October.

Boule de Neige. Very free pure white. 2½ feet.	
Curtissi. Pale heliotrope; August and September. 3 feet.	
Formosissimus. Bright violet. 3 feet.	
Herbststiele. Light lavender-blue. 3 feet.	
Lævis Floribunda. Light heliotrope. 4 feet.	
Novae Angliae. Bright violet-purple. 4 feet.	
" Lil Fardell. Bright mauve. 4 feet.	
" Rosea. Bright purplish-mauve. 4 feet.	
Novi Belgii Saphir. Soft sky-blue. 3 feet.	
Peggy Ballard. Small semi-double lavender-blue. 4 feet.	
Schoen Rottraut. Lively rose. 3 feet.	
Snowflake. Very free, pure white. 18 inches.	
Tataricus. Large bluish-lilac. 6 feet.	
Strong divisions. \$1.00 per doz.; \$7.00 per 100.	

New or Rare Hardy Asters (Michaelmas Daisies).

Beauty of Colwall. This is unquestionably one of the finest of the Michaelmas Daisies, of upright, compact growth, about 4 feet high, of free-branching habit, and literally covered during September with semi-double flowers of ageratum-blue, a pleasing shade. \$1.50 per doz. \$10.00 per 100.

Feltham Blue. One of the most decorative free-flowering blue varieties, a pretty shade of aniline blue produced on freely branched plants during August and September. 2½ feet high. \$1.50 per doz. \$10.00 per 100.

Grandiflorus. Not a new variety but one of the finest of all and distinct in character and flower from all others. The flowers, of a lovely dark bluish-violet, frequently measure 2 inches in diameter. It is the latest flowering variety—October and November—and by lifting the plants can be flowered in connection with Chrysanthemums, where its effect is very beautiful. 20 cts. each; \$2.00 per doz. \$15.00 per 100.

Novi Belgii Climax. One of the most important additions to the Michaelmas Daisies, and we believe the forerunner of a new type. The plant is of strong, vigorous habit of growth, over 5 feet high; fully one-half of this consists of much branched pyramidal shaped flower stems which are filled with lively light lavender-blue flowers fully 1¼ inches in diameter. The plant is in flower from the latter part of August to the middle of October. 20 cts. each; \$2.00 per doz.; \$15.00 per 100.

Novi Belgii St. Egwin. A bright pink in strong bushes, 2½ to 3 ft. high, during September and October. \$1.50 per doz. \$10.00 per 100.

Thompsoni. One of the most beautiful large-flowered sorts yet introduced. The flowers are not only of exceptional size, but of graceful, stellate form and of a pleasing Venetian blue color; grows 18 inches high, and blooms in July and August. \$1.50 per doz.; \$10.00 per 100.

Summer Flowering Hardy Asters.

These varieties grow from 15 to 18 inches high, and produce their showy flowers during July and August, their free flowering habit and compact growth makes them most desirable subjects for the front of the mixed border.

Acris. A neat variety, growing a foot high, completely covered in September with violet-blue flowers.

Amellus Beauty of Ronsdorf. Of a tender rose-lilac of most perfect form, entirely distinct.

Amellus Perry's Favorite. A most distinct bright clear rose.

Amellus Preziosa. A fine deep violet-blue.

Ptarmicoides. Flowers white, not large, but produced in great masses, fine for cutting.

\$1.50 per doz.; \$10.00 per 100.

New Astilbes.

Hybrida Gruno. A splendid salmon-pink, growing 4 feet high, with light, graceful spreading heads of flowers, the finest pink Astilbe yet introduced. 35 cts. each; \$3.50 per doz.

Hybrida Moerheimi. A strong growing variety, attaining a height of 5 to 6 feet, the well branched erect spike of flowers has a length of over 2 feet and is of a beautiful creamy-white. 35 cts. each; \$3.50 per doz.

Hybrida Salland. Similar to Davidi in habit of growth, but stronger, and of a distinct red color different from all others. 35 cts. each; \$3.50 per doz.

Simplicifolia. A new dwarf species and a perfect gem for a damp spot in the rock garden; it grows only 4 to 5 inches high, with attractive glossy bronzy-purple foliage and tiny racemes of white flowers. 35 cts. each; \$3.50 per doz.

Astilbe Arendsi.

This new type is of very vigorous growth, producing many-branched, feathered heads of flowers. 2½ to 3 feet high.

DOUBLE HOLLYHOCKS

Iris Interregna.

An interesting new type, the result of crossing *I. germanica* with *I. pumila hybrida*, and for which there promises to be a great future. They bloom earlier than the German Iris, and the flowers combine perfection of form with large size and clear and decided colors. The foliage is dwarf, and maintains its freshness throughout the season. The flower stems are almost 18 inches high, holding the flowers well above the foliage.

Frithjof. Standards light lavender blue, falls satiny violet-blue.

Helge. Light citron, with pearl-colored centre. A beautiful soft shade.

Ivorine. A fine large-flowered creamy white.

15 cts. each; \$1 50 per doz.; \$10.00 per 100.

Iris Pallida.

Pallida Dalmatica. One of the finest of the Germanica type. The plant is of strong habit, growing 4 feet high, with exceptionally large flowers, the standards of a fine lavender, the falls lavender shaded blue; fine for massing. \$1.50 per doz.; \$10.00 per 100.

Pallida Dalmatica Folia Variegata. Foliage variegated, with broad bands of creamy-yellow. 35 cts. each; \$3.50 per doz.

Pallida Speciosa. Standards dark-lavender, falls light-purple, very free flowering. \$1.50 per doz.; \$10.00 per 100.

Iris Pumila Hybrida.

A type which originated by crossing the dwarf early flowering *Pumila* Iris with the German varieties, they are among the earliest flowering and are very showy, growing from 10 to 12 inches high.

Cyanea. Rich royal purple, with blackish shadings.

Excelsa. A splendid pale lemon-yellow.

Schneekuppe. A large showy pure white.

85 cts. per doz.; \$6.00 per 100.

IRIS INTERREGNA

SIX-PETALED JAPANESE IRIS

Dreer's Imperial Japanese Iris.

These magnificent Iris are among the most beautiful of our hardy early-summer flowering plants and are destined to become as popular as the hardy Phlox and Pæonies. They are valuable not only as decorative flowering subjects for the garden, but are also very useful as cut flowers.

Our stock of Japanese Iris is very extensive in a splendid assortment of home-grown varieties and can be relied upon for being true to name and description. We supply these in strong liberal divisions of a most satisfactory planting size.

Hardy Perennial Phloxes

We are the largest growers of Perennial Phlox in the world, having this season over a half million field-grown plants in stock.

The collection offered below embraces every known color in this gorgeous race of Summer flowering plants, and we are prepared to furnish many of the rarer as well as the older standard varieties in large quantities at a low uniform price.

The plants are all strong one-year-old field-grown, but as Phloxes start into growth very early in spring it is our custom to cut them back and pot them into three inch pots early in March, this makes the most satisfactory stock for spring planting and even if set out late will produce an abundance of flowers.

The Best Recent Introductions

Astrild. Dense trusses of medium-sized flowers of a brilliant cochineal-carmine, shading deeper towards the center. \$1.50 per doz.; \$10.00 per 100.

Gefion. A new color in Phloxes, a tender peach-blossom pink with bright rose eye. \$1.50 per doz.; \$10.00 per 100.

Grideur. Ground color soft mauve rose, heavily suffused and overlaid with a lively deep shade of cerise, giving the whole a beautiful mottled appearance. \$1.50 per doz.; \$10.00 per 100.

Ingeborg (New this season). The most brilliant Phlox yet introduced; a rich vermilion-red, with a live, almost iridescent suffusion of orange-salmon which is intensified by a small brilliant purple-crimson eye. The flowers are of large size, fully 1½ inches in diameter, and are produced on just properly filled, not overcrowded much branched panicles; the plant is a strong healthy grower of medium height. We consider this novelty in a class by itself, and one that is certain to become a leader. 25 cts. each; \$2.50 per doz.; \$15.00 per 100.

Rheinlander. A beautiful salmon-pink with flowers and trusses of immense size, the color of the flower is intensified by a very decided eye of a deep claret-red. \$1.00 per doz.; \$6.00 per 100.

Riverton Jewel. One of our own introductions which it gives us great pleasure to recommend, a lively shade of mauve-rose illuminated by a carmine-red eye, a splendid improvement on the popular variety Asia. \$1.50 per doz.; \$10.00 per 100.

Thor. A most beautiful and lively shade of deep salmon-pink suffused and overlaid with a scarlet glow and a light almost white halo around its aniline-red eye. This variety will undoubtedly hold the same place among deep salmon colors that Elizabeth Campbell holds among the light salmon-pinks. \$1.50 per doz.; \$10.00 per 100.

W. C. Egan. One of the finest Phloxes yet introduced, and while the individual flowers according to the color-chart are of a delicate lilac color illuminated by a large bright solferino eye, the color effect as a whole is a delicate pleasing shade of soft pink. \$1.00 per doz.; \$6.00 per 100.

Wanadis. Entirely distinct, a mottling of white and light violet, reminding one of the native Phlox Divaricata Canadensis. The color is intensified by a bright reddish-purple eye, a strong grower producing trusses of immense size. \$1.00 per doz.; \$6.00 per 100.

General Collection of Hardy Phlox

Pantheon (Tall). Bright carmine rose.

Pierre Bayle. Crimson-carmine, overlaid with orange scarlet.

Professor Virchow (Medium). Bright carmine, overlaid with orange scarlet.

Rosenberg (Medium). Bright reddish-violet, with blood-red eye, large truss and individual flowers as large as a silver dollar.

R. P. Struthers (Tall). Rosy carmine with claret-red eye, fine.

Rynstrom (Medium). An improved form of the popular variety Pantheon; fine for massing, of a Paul Neyron Rose color. 85 cts. per doz.; \$6.00 per 100; \$50.00 per 1000.

Siebold (Tall). Bright vermilion-red overlaid with orange scarlet; crimson-red eye. 85 cts. per doz.; \$6.00 per 100; \$50.00 per 1000.

Sunshine (Dwarf). Large, aniline-red with crimson-red eye and light halo.

Von Hochberg (Tall). Bright French purple, one of the finest dark colored varieties.

Von Lassburg (Medium). The purest white in cultivation, individual flowers larger than any other white.

Widar (Medium). A splendid improvement on Edmond Rostand; in color a light reddish-violet, with very large white centre, which intensifies the color. 85 cts. per doz.; \$6.00 per 100; \$50.00 per 1000.

Price. Any of the varieties in the general collection except where otherwise noted, 75 cts. per doz.; \$5.00 per 100; \$40.00 per 1000

NEW HARDY PHLOX ARENDSI

A New Race of Phloxes, P. Arendsi.

At the great international exhibition held in London in May, 1912, where this new type of Phlox received an award of merit, no other new plant in the Hardy Perennial class attracted such great attention. This new type originated through the successful crossing of the early-flowering popular Phlox Divaricata Canadensis with the showy hardy herbaceous varieties of Phlox Decussata. The plants are of vigorous, branching habit, growing, according to the variety, from twelve to twenty-four inches high. Coming into flower during the latter part of May, they continue in good condition for nearly two months.

From a large number of varieties, the introducer has selected for us six of the most distinct sorts.

Amanda. The dwarfest of the collection growing but 12 inches high, very bushy, flowers delicate lilac with deeper centre.

Charlotte. Grows eighteen to twenty-four inches high, flowers very large, pale lilac shaded pink, with a prominent dark eye; one of the best.

Grete. Plant of very branching habit, twenty inches high, producing great masses of medium-sized white flowers.

Helene. Of a beautiful lavender-blue color, similar to Divaricata Canadensis. Shapely plant, fifteen to eighteen inches high.

Kæthe. Stems loosely branched, about twenty inches high, flowers purplish-rose, with a dark eye, surrounded by a lighter halo.

Lulse. A strong-growing variety, about two feet high, light lilac flowers with a carmine eye.

Price. 15 cts. each; \$1.50 per dozen; \$10.00 per 100.

Early Flowering Hardy Phloxes (P. Suffruticosa).

While this type does not contain the rich colors which are a feature of the other well-known sorts, it is invaluable on account of coming into bloom in May, or fully six weeks earlier than the others, and continuing throughout the season.

Clouded Gem. White, suffused with rose.

Miss Lingard. The grand, free-flowering early white.

Hercules. Bright rosy lilac.

Mrs. Dalrymple. White shaded rose; scarlet eye.

\$1.00 per doz.; \$7.00 per 100; \$60.00 per 1000.

Phlox Subulata.

(Moss Pinks or Mountain Pinks.)

Alba. White.

Atropurpurea. Bright purplish-rose.

Nelsoni. Pure white.

Rosea. Bright rose.

Papaver Orientale (Oriental Poppy).

It is not possible to satisfactorily transplant Oriental Poppies from the field in the spring. The stock which we offer is all one-year old field-grown, which was lifted and potted up into 3 and 4-inch pots during August and can be transplanted without any check.

Perry's White. Unquestionably the most important addition to our list of Poppies for many years. We offered it for the first time last season, and those who planted and flowered it were pleased. It is the most distinct break yet, the large flowers being of a pure satiny white, with a crimson-maroon blotch at the base of each petal. 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

Perry's Pigmy. Another distinct development and likely to be the forerunner of a new race of Oriental Poppies. The flowers of this novelty are no larger than those of the Iceland Poppies, but with the true Oriental form and of a pleasing soft salmon-rose color; a dainty flower. 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

Lady Frederick Moore. The flowers of this delightful variety are of a beautiful shade of clear salmon-pink, with a very conspicuous black blotch at the base of each petal. They measure seven inches in diameter. 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

Goliath. Brilliant fiery scarlet. \$1.50 per doz.; \$10.00 per 100.

New Hardy Vinca.]**Vinca Minor Aurea.**

A pretty yellow variegated form of the hardy Vinca Minor which is so extensively used as a ground cover especially in shaded places where grass will not grow.

This new variegated form should prove a most desirable addition for this purpose, particularly so as the foliage is much larger than in the type and irregularly margined and marbled with yellow.

It also should prove valuable for use in window boxes particularly for winter use in connection with Boxwoods and other Evergreen plants. \$1.50 per dozen; \$10.00 per 100.

A detailed illustration of a traditional wooden bucket or tub, likely made of staves bound together with metal hoops. It has a sturdy handle on the right side.

Made of white cedar, painted green, bound with strong electric-welded wire hoops. The three largest sizes have handles. A good heavy tub, very durable.
